

Welcome
in our restaurant

Burgenblick

We warmly welcome you in the middle of the city triangle of Gotha, Erfurt and Arnstadt in the “Thuringian Burgenland Drei Gleichen”.

From here you can enjoy impressive views of medieval architecture and a picturesque landscape. Visible from far away, three proud landgrave castles sit enthroned on three mountain cones: Mühlburg, Gleichen Castle and Veste Wachsenburg.

They are surrounded by myths and legends about blazing fires, cruel robber barons, kidnapped kings' daughters and medieval bigamy. And the area owes its name to one of these legends – namely that of the simultaneous lightning strike in all three castles in 1231. They are said to have blazed like three huge torches on their three mountains and brightly illuminated the villages, meadows and fields. From then on – so the legend goes – the people only called the castles and the land around them “The Three Equals”. The Drei-Equalen area is a unique and lively cultural landscape and at the same time part of the National GeoPark Thuringia Inselsberg – Drei Gleichen.

Of course, the three castles are the main attraction in the Drei Gleichen. But the many small museums, especially the headquarters of the Bach musical dynasty in Wechmar, the historic mills along the Apfelstädt, the 18-hole golf course in Mühlberg and the riding stables, are also attracting more and more visitors. This gentle hilly landscape is a true El Dorado for hikers and pedal riders alike, and its diversity is hard to beat.
